

Environmental Statement

2023-2024

RODAN Technologies is committed to ensuring that its operations, products and services result in the minimum impact on the environment and to reduce pollution wherever possible.

We will work towards:

- Creating products that are designed to reduce the effect on the environment by being recycled, recyclable or biodegradable.
- Promoting environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Ensuring that we comply with all relevant environmental and health and safety legislation.
- Specifying and purchasing sustainable, recycled and recyclable materials whenever possible.
- Reducing energy usage throughout the company by increased energy efficiency.
- Reducing waste through re-using or recycling the maximum amount of material.
- Avoiding the use of hazardous materials and products.

Every employee and contractor at RODAN Technologies are expected to follow this policy and to report any environmental concern to the management.

Environmental Awareness

- RODAN Technologies operations are fully compliant with the following environmental regulatory policies:
- Restriction of Hazardous Substances (RoHS)
- Registration, Evaluation, Authorization of Chemicals (REACH)
- Conflict minerals (Dodd Frank Act)
- Product and Component Recycling
